Warm greetings from the Self-Support and Finance desk here at the General Service Office (GSO) of US/Canada. It is so nice to be in touch with you all. As the Self-Support and Finance Coordinator, I am available to support inquiries related to finance and the Seventh Tradition. It is a privilege to be of service to the Fellowship in this capacity.

Included within this report are resources, current updates, and news from the General Service Office intended to help keep members informed and to support clearer, more transparent communication between GSO's financial activity, and the Fellowship.

### **Call for Shared Experience on the 7<sup>th</sup> Tradition in Action - Audio Recordings**

We are inviting members to participate in a call for sharing by recording a 1-minute message about how an A.A. essential service has supported your journey through sobriety or helped you carry the message of A.A.

Here are the links to access those calls for sharing-

- **Treatment:** Your experience seeing A.A. literature, meetings, or members carrying the message into treatment centers and hospitals.

## **Monthly A.A.W.S. Communication – Self-Support**

*The AAWS Finance Committee recommended that monthly communication to Conference members be initiated from the Self-Support assignment, developed in consultation with the AAWS Treasurer, Chair of the General Service Board and General Manager with regular updates provided to the AAWS Self-Support Subcommittee.*

The monthly A.A.W.S. communication includes a focus on self-support, with messages shared by trusted servants within the General Service structure and General Service Office staff.

These reflections are based on personal experience with the Seventh Tradition in action and speak to the importance of self-support from an individual perspective. This effort is intended to bring forward shared experience and continue the conversation of self-support throughout the Fellowship of A.A.

## **Contribution Portal on aa.org (<https://contribution.aa.org/#login-register>)**

Updates to the contribution portal are currently underway through a collaboration between the Technology Department and the Finance Department. Additional inventory and a review of contribution vendors have been initiated with a goal to better improve our site when receiving contributions and adapting to the needs of groups practicing the 7<sup>th</sup> tradition.
